

# Group Worksheet of the 1<sup>st</sup> Workshop for Urban Resilience in ASEAN

## Practice for Planning on Urban Resilience Project, and necessary Disaster Risk Assessment

Basic Information	0. Name of Target City					
	1. Critical Hazard		Earthquake / Flood / Tsunami / Cyclone			
	2. Name of Target Area (if can be specified)		<i>(See attached map)</i> Name of target area _____			
	3. Background (Concerned risk and issue)		<i>(Describe background: allow bullet points)</i>			
	4. Project Title					
Urban Resilience Project	5. Project Objective		<i>(Describe objectives: allow bullet points)</i>			
	6. Components of Urban Resilience Project based on result of Disaster Risk Assessment		<i>(Describe the component of Urban Resilience Project in the table below)</i>			
			Component	Prevention / Mitigation / Preparedness	Structural or Non-structural	Detail
7. Implementation Organization (list all)		Executing Agency: Concerned Agencies:				
Necessary Disaster Risk Assessment	8. Item of Disaster Risk Assessment + 9. Data Resource (Existing data)		<i>(Check necessity and describe existing data in the table below)</i>			
			Item	Necessity	Necessary Data	Existing Data
			Hazard Assessment		Geological/Geographical data	
			Human loss		Population inventory data	
			Building damage		Building inventory data	
			Public infrastructure damage		Infrastructure distribution data	
			( )		( )	
			( )		( )	
		( )		( )		
10. Key Issues on implementing project						
11. Solutions for key issues
